### **May Recycling Collection Rescheduled for October**

**(Allegan, MI)**— Due to the uncertainty of COVID-19, the annual Electronics and Household Hazardous Waste collection event originally scheduled for Saturday, May 2, 2020 is rescheduled for Saturday, October 24, 2020 from 9:00am-12:00pm at the Harding's Market parking lot in Wayland.

With the nature of this event, social distancing would be difficult to maintain. The health and safety of our residents, vendors, volunteers, and public safety that participate in this event are the top priority.

Residents participating in the Resource Recovery Program should continue to safely store materials until they can be properly recycled.

Please do not bring collection items to Harding's Market prior to or after the rescheduled date of October 24, 2020. The Allegan County Resource Recovery Program works hard to maintain positive relationships with host sites and municipalities so we can continue to provide these recycling events to the community.

For more information, call (269) 686-4559 or email [rgraham@allegancounty.org](mailto:rgraham@allegancounty.org).
